

Special Initiative by H.O.P.E. for Post-Secondary Technical Education

In the year 2013, HOPE decided to select ten students annually for enrollment in a “Diploma of Associate Engineers”. The goal is to equip them with technical skills and knowledge that could help become self-sustained. Majority of the students were from rural and remote areas such as Baluchistan. Due to some inevitable family issues, two students could not continue with their studies beyond first year. Another student immigrated to Australia. The remaining seven students appeared in the final year exam and all passed with flying colors. A marvelous success was achieved by the young, energetic Ali Khan who got first class first position in two consecutive years (first year and then second year) in the examinations held under Punjab Board of Technical Education Lahore (PBTE). All students and their families sincerely thank all the sponsors and donors of H.O.P.E. Foundation Canada fir their consistent and generous support throughout their education.

List of Students that Appeared in Final Exam

Sr. #	Name	Father 'Name	City	Technol ogy	Photo
1	Ali Khan	Ali Shah	Quetta	CIT	
2	Sajjad Haider	Muhammad Hashim	Quetta	CIT	
3	Saeed Ahmad	Dost Muhammad Makrani	Sabi	CIT	

4	Ahsan Ali	Ruban Khan(Late)	Jhal Magsi	CIT	
5	Muhammad Jan	Ali Jan	Jaffrab ad	CIT	
6	Sajjad Hussain	Ghulam Abbas Khan	Quetta	CIT	
7	Ali Muhammad	Muhammad Ali	Quetta	CIT	

Total selected students were 10. Two of those left the institution during First year and one left last year because migrated with his family to Australia.

It is great achievement of our team which work hard and remain sincere with the students during whole the period and guide them on every step where they need.

A farewell party has been given to the final year students. In this party few seniors Brothers were invited to encourage these students and give productive instructions to succeed in every field of life. They said that no doubt HOPE organization is working on Technical Education that is positive step to bring change in society.

Students of final year were so excited on this joyful event because they have successfully completed the three year technical educational challenges with the requirement of their institute, fulfilled their promise with the HOPE team which were done at the time of enrollment in college. Their remarks are reproduce as under:

“Thanks to HOPE organization who provided us technical education and provided us such a useful environment to get moral values. We learned so many ideas which are most important for our life. Thanks hostel management which taught us important Islamic lessons which are important for our future life and to face any problem in life and stay with them. We know young generation is the key to bring change in society.

On this party students expressed their ideas especially thanks to the HOPE volunteer team which work hard to manage our college activities, boarding, travelling and training of moral & Islamic values and fully supported us.

Students and guests were served from HOPE and all such kind of arrangement was done for students to give them respect and well wishes and prayers at this final moment.

Thanks HOPE for giving hope in life, for those who cannot in position to continue their study to achieve their goal of life.

Now we are trying our best that these students may get their jobs as soon as possible so that it will be the matter of inspiration for coming students.
