ABOUT US

Help Orphans and Promote Education (H.O.P.E.) Foundation is a federally registered Canadian charity that is focused primarily on providing education by sponsoring orphans and needy children. H.O.P.E. also strives to provide relief to the people affected by natural disasters, to help bring them back to a normal life.

We strongly believe in complete transparency and take great measures to ensure that every penny of the donated funds is used in the most effective manner. We contribute to projects which not only take care of the immediate needs, but also provide the means through which an orphan can become self-sufficient and lead a respectable life. We believe in bringing hope and enlightenment by giving these children an opportunity to play an active and productive role in their society.

MISSION & VISION

H.O.P.E. Foundation's foremost task is to equip the poverty stricken young generation of orphans and needy with the most important tool to help cultivate them into leaders of tomorrow – Education.

To advance education by providing scholarships, bursaries, awards and other form of financial assistance to children and youth who are orphans or in financial need; and to provide financial and material relief to the victims of disasters.

PROJECTS OVERVIEW

RAMADHAN RATION

As is done annually, H.O.P.E. Foundation once again arranged for and distributed ration packs created with one month supply per family. Many remote villages around Pakistan were covered, including those in cities like Karachi, Quetta, Peshawar, Rawalpindi, Lahore and Hyderabad to Sibi, Thar, Jafarabad, Jacobabad, Layyah and Parachinar and more.

The ration packs included the list below, and were successfully distributed to over **1260 families**.

These packs typically include the following items. One ration pack is enough for four people for one month.

- Flour
- Rice
- Oil
- Chana dal
- Moong dal
- Channa
- Sugar
- Gramflour
- Tea
- Jam
- Rooh Afza
- Dates
- Salt
- Spices

The distribution of the above ration packages usually begins just before the beginning of the month of Ramadhan and continues till after Eid. Fitra is also collected by the organization and distributed as per the Sharia requirements.

QURBANI

"And when they had both submitted and he put him down upon his forehead, We called to him, "O Ibrahim, You have fulfilled the vision." Indeed, We thus reward the doers of good. Indeed, this was the clear trial. And We ransomed him with a great sacrifice, And We left for him [favorable mention] among later generations: "Peace upon Ibrahim." (The Holy Quran 37: 103-109).

With rewards promised by Allah in the Holy Quran itself, our generous donors contributed for the sacrifices of cows and goats done this year. As we usually do, HOPE Foundation organized for the meat from these qurbanis to be distributed to needy families.

With so many people fulfilling the Sunnah and help others get through this difficult year, we were able to help **1730 families** get access to meat and enjoy their celebrations of Eid last year. These donations helped to put a smile on the face of so many needy children and adults alike, a moment of joy for them once again with your qurbani.

EDUCATION

As our core mandate, the H.O.P.E. Foundation focuses on providing access to education for those who would usually not have this access. In addition to contributing towards the school fees of the students, the donations also help to maintain a certain standard of education and facilities offered to these children.

In areas where there has historically been almost no education and no facilities, this year we have supported **46 schools** through various means, including :

- Providing training to teachers and staff
- Services and assistance for staff, teachers and students
- Infrastructure in the schools, including water, hygiene and sanitation
- Overall facilities to help students achieve a good standard of all-rounded education

**LECTURE BY

Keeping in mind the COVID pandemic, all the schools were also equipped with the required tools to ensure the health and safety of all students and staff, including masks, daily temperature checks, sanitizers and gloves. Vaccination drives were also conducted in some schools.

We have helped a total of **4,500 students** get access to good education by providing their school fees, uniforms and books.

Over the year, we were able to improve several things in a number of schools, including providing facilities for sports and recreation, organizing community events during special occasions, award functions, as well as getting specialized speakers and trainers where there was an opportunity for students to gain more information and knowledge.
